

OKAN ACTED AS FINANCIAL ADVISOR IN ORGAEARTH'S DEBT RAISING WITH THE MAURITIUS COMMERCIAL BANK

Okan is pleased to announce that **OrgaEarth**, a Madagascar-based producer of cactus oil, has successfully completed the raising of a bridge loan with the Mauritius Commercial Bank (MCB). The bridge facility raised, to be followed by a multi-currency long-term loan, will allow the company to fund the expansion of its activity.

Capitalizing on Southern Madagascar abundant cactus resource, OrgaEarth aims at producing high-quality prickly pear oil with unique skincare benefits. The project will combine strong financial performances with a unique social and environmental impact. Impact will notably be achieved through the sustainable and responsible sourcing of prickly pear seeds, which will provide Southern Malagasy rural populations with a stable source of income.

Okan intervened as the **sole financial advisor** to OrgaEarth on this transaction, with Amaury de Féligonde (Managing Partner), Hicham Alaoui (Manager) and Hubert Vermeren (Associate).

About OrgaEarth

A joint-venture between Filatex Group and Green Bird, OrgaEarth exploits cactus resource in Southern Madagascar to become one of the main producers of high-quality prickly pear oil globally. <https://orgaearth.org/>
